143.14 STANDARDS FOR DESIGN REVIEW. GUIDELINES.

Designs shall be reviewed in accordance with the United States Secretary of the Interior's Standards for Rehabilitation (36 CFR Part 67.7 (b)) and National Park Service Preservation Briefs, on a case-by-case basis, as further described in the Historic Preservation Design Guidelines for the City of Cleveland Heights, as may be amended from time-to-time.

The following United States Secretary of the Interior's Standards for Rehabilitation (36 CFR Part 67.7 (b)) shall be applied in a reasonable manner, taking into consideration economic and technical feasibility:

(a) A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

(b) The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

(c) Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

(d) Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

(e) Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.

(f) Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

(g) Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

(h) Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

(i) New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

(j) New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

~~(a) The Commission may establish Design Guidelines for the City of Cleveland Heights Landmarks and Historic Districts to guide review of alterations and new construction to a Landmark or within an Historic District. Design guidelines shall not limit new construction within a Historic District to any one historical period or architectural style, but shall seek to preserve the integrity of existing historic structures. Building design shall not attempt to copy a historical style, but a contemporary design shall respect the context, massing and scale of the area. When establishing Design Guidelines, the Landmark Commission shall share and discuss the draft guidelines with the Architectural Board of Review and obtain their recommendation.~~

~~(b) Designs should be reviewed with respect to Design Guidelines for the City of Cleveland Heights Landmarks and Historic Districts. Until such time that these guidelines are established, designs for Certificates of Appropriateness shall be reviewed keeping in mind the Secretary of the Interior's Standards for Rehabilitation which, at a minimum, consider the following exterior architectural features and design criteria:~~

~~(4) Roof shape~~
